

William (Bill) Klein is a biologist with the Regional Planning Division South, Environmental Planning Branch at the New Orleans District, Louisiana. His current work includes coordinating adaptive management and monitoring for the Louisiana Coastal Area (LCA) Ecosystem Restoration Program, other ecosystem restoration and mitigation projects. Bill was the Environmental Manager (EM) for the programmatic EIS for the 2004 LCA Ecosystem Restoration Study and is currently the EM for several of the near-term LCA ecosystem restoration projects. Bill's work with the USACE, since 1994, has included not only ecosystem restoration, but also navigation and hurricane and flood risk reduction studies and projects. Bill is a Certified Professional Wildlife Biologist. Prior to his work at the USACE, Bill was the Lecturer and Head of the Wildlife Management Program at Sul Ross State University, Alpine Texas.
