

David L. Shaeffer

David graduated with a MA degree in Geography from East Carolina University in 2008. David's has a background in geospatial statistics, remote sensing of aquatic resources, biogeography, and web mapping. David has worked as a project manager for the U.S. Army Corps of Engineers (USACE) Regulatory Program since 2006. His primary duties include implementing federal regulations protecting navigation, interstate commerce, and water quality. David also serves as a GIS subject matter expert for USACE Wilmington District Regulatory Division. He has worked for USACE in Southeast Alaska, Western Washington State, and North Carolina.

David has been a GIS subject matter expert for the USACE GIS Cadre since 2006. The Cadre provides support to FEMA and USACE emergency operations during emergency declarations. David has been a GIS subject matter expert with the USACE Civil and Military Emergency Preparedness Program since 2011 and has participated as an instructor and lead instructor during four GIS training events worldwide. David is also an active member of the USACE Wilmington District emergency commodities team.
