

Doug Austen is the national coordinator for the Landscape Conservation Cooperatives and is located in the Office of the Science Advisor of the U.S. Fish and Wildlife Service. In that capacity he works with a broad and diverse array of federal and state agencies, non-governmental organizations, tribes, universities and others to implement a landscape conservation approach to management of our natural and cultural resources.

Doug has been working in the conservation field for over 25 years. Prior to his current position he worked for a short period with the Pennsylvania Department of Conservation and Natural Resources and served 6 years as executive director of the Pennsylvania Fish and Boat Commission.

Before moving to Pennsylvania, Doug worked for 10 years each with the Illinois Department of Natural Resources with the Illinois Natural History Survey where he was involved with a wide variety of fisheries issues, ecosystem management, the Illinois River Conservation Reserve Enhancement Program, and stream and watershed restoration. He also was an adjunct faculty with the University of Illinois.

In other activities, Doug helped lead the development of the National Fish Habitat Action Plan (NFHAP) and served as President of the Illinois Chapter and the North Central Division of the American Fisheries Society (AFS) as well as an associate editor of the North American Journal of Fisheries Management. Doug was President of the Northeast Association of Fish and Wildlife Agencies and on the Governing Board of the Association of Fish and Wildlife Agencies.

Doug received his Ph.D. from Iowa State University, M.S. from Virginia Tech and B.S. degree from South Dakota State University.
