

S. Kyle McKay, Ph.D., P.E.

26 Federal Plaza, Room 2146

New York, NY 10278

Athens, GA 30606

Cell: 601-415-7160; Office: 917-790-8717

Email: Kyle.McKay@usace.army.mil

Dr. Kyle McKay is a research civil engineer with the U.S. Army Engineer Research and Development Center (ERDC) Environmental Laboratory (EL). He received a B.S. in Environmental Engineering from Colorado State University, an M.S. in Civil Engineering from University of Illinois Urbana-Champaign, and a Ph.D. at the University of Georgia's Odum School of Ecology. His research focuses broadly on examining ecological effects of water resources infrastructure with applications related to stream and watershed restoration, fish passage improvement, environmental flow management, and sustainability policy. He is stationed in the USACE New York District to facilitate cooperative research between the ERDC, the District, and other local partners.
